Subject: FOIA Request for original Inventory Submission for Sulfonic acids, petroleum, sodium salt by American Hoechst and Responses from EPA

Clariant Corporation is requesting the original Inventory submissions by American Hoechst for sulfonic acids, petroleum, sodium salt and the correspondence from EPA to American Hoechst. The submission by American Hoechst may have included CAS numbers:

68608-26-4 Sulfonic acids, petroleum, sodium salt
68037-49-0 Sulfonic acids, C10-18-alkane, sodium salts
85711-69-9 Sulfonic acid, C13-17-sec-alkane, sodium salt
97489-15-1 Sulfonic acids, C14-17-sec-alkane, sodium salts

It is our understanding that with EPA input we were directed to describe our product by using CAS 68608-26-4. We are trying to determine the history of our inventory submission. Any information from 1976 to 1986 would be helpful.

For your information, American Hoechst purchased Celanese Corporation becoming Hoechst Celanese. Clariant Corporation purchased the specialty chemicals side of Hoechst Celanese.

Please let me know if you have any questions or require additional information.

Sincerely,

Larry Kesler
Senior Product Stewardship Chemist
